

		June 7	June 8	June 9
			Chair: Kiazuhide Nakajima (NTT)	Chair: Kiichi Hamamoto (Kyusyu Univ.)
9	0		T1.1 Roland Ryf (Bell labs., Nokia) "High capacity transmission over Coupled-Core Fibers"	F1.1 Guillaume Labroille (CAILabs) "Recent Progress in Space-Division Multiplexing Devices using Multi-Plane Light Conversion"
	10			
	20			
	30		T1.2 Tetsuya Hayashi (Sumitomo Electric) "Recent advances on randomly coupled multi-core fibers"	F1.2 Ryo Nagase (Chiba Inst. Tech.) "Fiber-optic interconnecting device technologies for SDM systems"
	40			
10	50		T1.3 Katsuhiro Takenaga (Fujikura) "High count multi-core fiber and measurement technology"	
	0			Coffee Break
	10		Coffee Break	Chair: Itsuro Morita (KDDI Research)
	20		Chair: Yun Chung (KAIST)	F2.1 [Plenary] René Essiambre (Bell Labs, Nokia) "Transmission and the Fate of Space-Division Multiplexing (SDM) in Core Networks"
	30		T2.1 William Shieh (Merborne Univ.) "Multi-parameter sensing using few-mode fibers"	
11	40			
	50		T2.2 Tristan Kremp (OFS) "Continuous multicore optical fiber gratings for distributed sensing"	F2.2 Masato Yoshida (Tohoku Univ.) "Ultramulti-level transmission in multi-core fiber"
